

Conveyor & Automation
TECHNOLOGIES, INC.

Experience Matters

LAST YEAR YOU SAW OUR ROBOT WORKING AS A BAR TENDER:

<https://www.youtube.com/watch?v=FWbnEK75jG8>

THIS YEAR YOU WILL SEE HIM CREATE A VARIETY PACK OF 4 FLAVORS:

APRIL 11 - APRIL 13, 2017

WASHINGTON, D.C.

BOOTH NUMBER 6207

Conveyor & Automation Technologies is a Manufacturer & Systems Integrator focused on providing unique automation solutions for filling/packaging lines. Whether you are planning upgrades to an existing line, or adding an entirely new filling/packaging line, C & AT is your best source to put together a custom solution that will suit the specific needs of your brewery.

- C&AT engineers can evaluate your current operation, consider various opportunities for improvement, and recommend a solution which considers your budget constraints yet offers a system that maximizes your overall line efficiency.
- C&AT also manufactures a Soft Pack Robotic Case Packer that's designed specifically with the Craft Brewers in mind. It gently packs "long neck" glass bottles into a corrugated case with partitions.
