

CONVEYOR & AUTOMATION IS PLEASED TO PROVIDE YOU WITH THE LATEST TECHNOLOGY FOR ACCUMULATING PRESSURE SENSITIVE, AND BATCH SENSITIVE PRODUCTS:

MICRO-PITCH FLOW TABLES

- **First In/First Out Accumulation**
- **Multiple short zones to minimize pressure to the product.**
- **Each zone built with micro-pitch chain and adjustable nose-bar transfers to provide a self-clearing accumulation bed.**
- **Each zone is controlled individually and will adjust speed based on the demands of the line.**
- **Can be paired with a Pressure-less single-filer to handle both round and non-round containers.**
- **Can be designed to fit a wide variety of floor plans and configurations to suit the needs of each product.**
- **Provides the best utilization for accumulated product per square foot of floor space.**
